

SPECIALIST INSURANCE SERVICES

The Cowden Group is now one of the largest Australian owned insurance broking organisations and ranks nationally as a major insurance broker.

Our fundamental objective has always been for Cowden to provide our clients with consistently high levels of service to add value to their business.

Our team of professional insurance brokers carry out regular reviews of policies available so we can select those that best suit your needs and create a tailored insurance package.

Some of the specialist insurance services we provide our clients include;

-  Commercial Insurance;
-  Liability Insurance;
-  Personal Insurance;
-  Claims Management;
-  Premium Reduction Strategies;
-  Premium Funding;

With our professional and qualified insurance broking and support staff, we give our commitment to providing service of the very highest quality to all our clients throughout Australia.

MAKING RISK MANAGEMENT SIMPLE

SAFETY MANAGEMENT SYSTEM

WEB BASED SAFETY MANAGEMENT SOFTWARE

SAFETY MANAGEMENT SYSTEM

Cowden Limited have developed a comprehensive web-based safety management system built in accordance with the best practice Australian Standard AS/NZS: 4801.2001 for our clients.

The web-based Safety Management System (SMS) contains the necessary components to effectively manage workplace health and safety in an easy to use software program.

Implementing the Safety Management System (SMS) software will get your business demonstrating compliance with safety legislation.

Benefits in complying with legislation can lead to improvements in productivity with fewer lost days, reduced insurance costs and it can even be used to secure new business opportunities.

The benefits are so significant that some organizations even go further by using the software to become certified to National and International Standards.

Tailored Safety Solution:

Our Risk Team can customise the safety management system to meet the exact specifications of your organizational risks and industry health and safety requirements.

In addition, we can tailor the management system documents and system modules to meet your corporate branding and style guide requirements.

Cowden Limited is committed to excellence.

In addition to our professional broking services, we provide innovative solutions for our clients to ensure they meet existing and future business needs in the area of Insurance and People Risk Management.

We maintain an up to date knowledge base in the areas of risk management and injury management practices. We constantly keep clients informed of changes, which may affect their company systems and processes.

Improving your businesses health and safety performance, leads to better business.

The benefits to your business in productivity and efficiency, will allow you to compete more successfully in your key marketplace.

We have provided a brief outline on the web-based safety management system solution offered by the risk team at Cowden Limited as part of this pamphlet.

SAFETY MANAGEMENT SYSTEM

The Safety Management System Software developed by Cowden Limited contains the following:

Suite of Comprehensive System Documents:

The Safety Management System contains a comprehensive suite of documents all designed to comply with the AS/NZS: 4801 Standard for Occupational Safety & Health Management Systems, including;

- Policies - Procedures - Guidelines - Flowcharts - Forms
- Safety Management Plan - Crisis Management Plan - Bulletins
- Safety Performance Data Sheet - OSH Reference Information

Induction Program:

The software contains a comprehensive web-based safety induction training program complete with (3) Modules and competency-based assessments. This induction program can be further tailored to company/site specific requirements.

Training Module:

We have included an additional software program as part of the safety management system that contains a full library of safety training talks. The system can be used by the Supervisor/Manager to conduct regular professional training sessions with all staff members.

Implementation Assistance:

To assist our clients with the successful implementation of the safety management system program, we have developed an implementation checklist that details step-by-step actions that are to be completed by the client in an easy to understand format. Once all actions are completed the client is instructed to contact the Cowden Risk Advisor to attend site and audit the status of implementation.

Clients needing further assistance will be provided with an additional action plan to close off all required compliance items.

Please feel free to contact us to arrange a live demonstration of the Safety Management System software at your workplace today.
